pregnancy me white discharge q aata hai	White discharge during pregnancy can be normal, but if it changes color, has a bad smell, or causes itching, it might be a danger sign. A healthcare provider should be consulted immediately if these symptoms occur. [Source: Ante natal care document.md]	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nInput: "pregnancy me white discharge q aata hai"\nTranslation: "Why does white discharge occur during pregnancy?"'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES.\n\nIntent: Symptoms/Emergencies (white discharge)\nOperational Strategy Directive: TRIGGER_ACUTE_REDIRECTION_MANDATE\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS.\n\nKeywords: safed pani, white discharge\n\nPotential Filename Candidates: [\nmaternal_danger_signs_and_emergencies.md\n]\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files.\n\nNo exclusions apply for \nmaternal_danger_signs_and_emergencies.md\n based on the query.\n\nFinal Shortlisted Files: [\nmaternal_danger_signs_and_emergencies.md\n]'\n\n'target_topic_slugs': [\nmaternal_danger_signs_and_emergencies.md\n],\n'extracted_intent_tags': ['white discharge', 'pregnancy', 'symptoms', 'emergencies']}\n
Mera 15 January ko date aaya tha uske bad se kitne mahine hue hain	I am sorry, but that query falls completely outside the scope of our authoritative field manual guidelines.	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nTranslation: "My date was on 15th January, how many months have passed since then?"'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES. Identify core command.\n\nThe query is asking about the time elapsed since a specific date, which does not directly map to any specific intent profile in the routing directives. It seems to be a general inquiry about time calculation, which is outside the scope of the provided health-related documents.\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS. List all potential filename candidates matching the intent.\n\nNo specific health-related intent keywords are identified in the query that match the inclusion keywords.\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files. If query matches a banned parameter, strike that file path from your pool to yield target array.\n\nSince no files were shortlisted in Stage 2, there are no exclusions to apply.\n\nConclusion: The query is outside the scope of the health-related documents provided in the index. It is a general question about time calculation, not related to any specific health topic covered by the documents.',\n'target_topic_slugs': [],\n'extracted_intent_tags': []}\n
acidity ho gayi h toh kya karna chahiye	I am sorry, but that query falls completely outside the scope of our authoritative field manual guidelines.	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nInput: "acidity ho gayi h toh kya karna chahiye"\nTranslation: "What should be done if there is acidity?"'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES.\n\nThe query relates to a symptom (acidity), but it is not classified as an acute severity or high alert symptom in the provided index.\n\n- No specific milestone or administrative aid is mentioned.\n\n- Default to Generic Pooling as no specific directive matches.\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS.\n\n- No direct match for \nacidita\n in the inclusion keywords.\n\n- No specific file path directly addresses acidity.\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files.\n\n- No files were shortlisted in Stage 2, so no exclusions apply.\n\nConclusion: The query about acidity does not directly map to any specific file in the index. It is slightly outside the scope of the provided KB, and no related files can be confidently suggested.',\n'target_topic_slugs': [],\n'extracted_intent_tags': ['acidity']}\n
Kon sa formula milk best hota h bachhe k liye	I am sorry, but that query falls completely outside the scope of our authoritative field manual guidelines.	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nInput: "Kon sa formula milk best hota h bachhe k liye"\nTranslation: "Which formula milk is best for the child?"'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES. Identify core command.\n\n- Extracted intent: child nutrition, formula milk\n\n- No specific milestone marker or acute severity detected.\n\n- Protocol Selection: No direct match for formula milk in SECTION_1_ROUTING_DIRECTIVES. Proceed to inclusion shortlisting.\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS.\n\n- Keywords: child nutrition, infant nutrition\n\n- Potential matches: \ninfant_nutrition_exclusive_breastfeeding_0_to_6_months.md\n, \nchild_nutrition_complementary_feeding_6_to_24_months.md\n\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files.\n\n- \ninfant_nutrition_exclusive_breastfeeding_0_to_6_months.md\n exclusion: complementary foods, formula feeding\n\n- \nchild_nutrition_complementary_feeding_6_to_24_months.md\n exclusion: exclusive breastfeeding, 0-6 month nutrition\n\n- Both files have exclusions related to formula milk, indicating no direct match for formula milk guidance.\n\nFinal Decision: No specific file directly addresses formula milk. Return empty as the query is slightly outside the scope of the available KB.',\n'target_topic_slugs': [],\n'extracted_intent_tags': ['child nutrition', 'formula milk']}\n
Mere pao me bhot dardr rhta hai	I am sorry, but that query falls completely outside the scope of our authoritative field manual guidelines.	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nInput: "Mere pao me bhot dardr rhta hai"\nTranslation: "I have a lot of pain in my feet?"'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES. Identify core command.\n\n- The query indicates a symptom (pain in feet), which could be related to acute severity or symptom vector.\n\n- However, \npain in feet\n is not explicitly listed under acute severity or high alert symptoms in the directives.\n\n- Default to Generic Pooling as no explicit acute redirection or administrative lane is triggered.\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS.\n\n- No direct match for \npain in feet\n in the inclusion keywords.\n\n- No specific document directly addresses general pain symptoms in feet.\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files.\n\n- No files were shortlisted in Stage 2, so no exclusions apply.\n\nConclusion: The query does not match any specific document in the index. No files are directly relevant to the symptom of foot pain.',\n'target_topic_slugs': [],\n'extracted_intent_tags': ['pain', 'feet']}\n
Sonography report mein XY likha hai toh kya ladka paida hoga	I am sorry, but that query falls completely outside the scope of our authoritative field manual guidelines.	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nTranslation: "If XY is written in the sonography report, will a boy be born?"'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES. Identify core command.\n\n- The query is about interpreting sonography results related to gender prediction, which does not match any specific intent profiles in the routing directives.\n\n- No direct match for lifestyle_nutrition, clinical_milestone, acute_severity, or administrative_aid.\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS.\n\n- No keywords related to sonography or gender prediction are present in the inclusion keywords.\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files.\n\n- No files were shortlisted in Stage 2, so no exclusions apply.\n\nConclusion: The query is outside the scope of the provided knowledge base, as it pertains to gender prediction from sonography, which is not covered by any of the documents.',\n'target_topic_slugs': [],\n'extracted_intent_tags': []}\n
Meri ladki dhai sal ki hai usko Paisa nahin mila hai ab	Mere paas iska uttar nahin hai. Kripya apne najdik ke health facility/doctor/officer se sampark karein. [The Wiki doesn't have any answers to this question]	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nInput: "Meri ladki dhai sal ki hai usko Paisa nahin mila hai ab"\nTranslation: "My daughter is two and a half years old, she has not received money yet."'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES.\n\n- Extracted intent: administrative_aid (related to schemes/benefits)\n\n- Operational Strategy Directive: ISOLATE_ADMINISTRATIVE_LANE\n\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS.\n\n- Keywords: paisa, yojana, labh\n\n- Potential filename candidates: [\n'govt_scheme_pradhan_mantri_matru_vandana_yojana_pmmvy.md\n', \n'govt_scheme_janani_suraksha_yojana_jsy.md\n', \n'govt_scheme_janani_shishu_suraksha_karyakram_jssk.md\n']\n\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files.\n\n- No exclusions directly applicable to the query context.\n\nFinal shortlisted files: [\n'govt_scheme_pradhan_mantri_matru_vandana_yojana_pmmvy.md\n', \n'govt_scheme_janani_suraksha_yojana_jsy.md\n', \n'govt_scheme_janani_shishu_suraksha_karyakram_jssk.md\n']\n\n\n'target_topic_slugs': ['govt_scheme_pradhan_mantri_matru_vandana_yojana_pmmvy.md', 'govt_scheme_janani_suraksha_yojana_jsy.md', 'govt_scheme_janani_shishu_suraksha_karyakram_jssk.md'],\n'extracted_intent_tags': ['paisa', 'yojana', 'labh']}\n
Best doctor Kaun Hai delivery ke liye	Mere paas iska uttar nahin hai. Kripya apne najdik ke health facility/doctor/officer se sampark karein. [The Wiki doesn't have any answers to this question]	{'router_reasoning_log': 'MANDATORY 4-STAGE REASONING WORKFLOW:\nSTAGE 0 (Language translation): Translate input question from Hindi to English query.\n\nInput: "Best doctor Kaun Hai delivery ke liye"\nTranslation: "Who is the best doctor for delivery?"'\n\nSTAGE 1 (Protocol Selection): Match query signature parameters against SECTION_1_ROUTING_DIRECTIVES. Identify core command.\n\n- The query is about finding a doctor for delivery, which relates to clinical milestone but lacks a specific milestone marker.\n\n- Protocol: ACTIVATE_CHRONOLOGICAL_POOLING (intent_profile == lifestyle_nutrition AND milestone_marker == null)\n\n\nSTAGE 2 (Inclusion Shortlisting): Cross-reference intent tokens against SECTION_2_INCLUSION_KEYWORDS.\n\n- Keywords: delivery, doctor\n\n- Potential matches: maternal_care_trimester_3_and_birth_prep.md, local_health_services_and_schedules_mumbai.md\n\n\nSTAGE 3 (Defensive Negative Masking): Isolate SECTION_3_ABSOLUTE_EXCLUSIONS for shortlisted files.\n\n- No exclusions apply to the selected files based on the query.\n\nFinal Shortlisted Files: maternal_care_trimester_3_and_birth_prep.md, local_health_services_and_schedules_mumbai.md'\n\n'target_topic_slugs': [\nmaternal_care_trimester_3_and_birth_prep.md\n, \nlocal_health_services_and_schedules_mumbai.md\n],\n'extracted_intent_tags': ['delivery', 'doctor']}\n

	Aapko 8 mahine ki pregnancy mein kuch extra khana chahiye:
	- Har din 350 extra calories aur 18 grams protein lena zaroori hai. [Source: PNC nutrition and anemia.md] - Ek extra meal apne regular diet ke saath khayein. [Source: Essential Nutrients for A Pregnant Woman.md] - 4-5 chhoti meals aur healthy snacks din bhar mein lein. [Source: Essential Nutrients for A Pregnant Woman.md] - Iron aur Folic Acid ki goliya lena na bhulein. [Source: PNC nutrition and anemia.md]
8 months pregnancy diet chart do	
	Mere paas iska uttar nahin hai. Kripya apne najdik ke health facility/doctor/officer se sampark karein. [The Wiki doesn't have any answers to this question]
Khoon badhane k liye kya khana zaruri hai	
9 month shuru hone wala hai mera kiya IGM hospital jana jaroori hai abhi checkup ke liye	
	Pregnancy me aapko sabji khani chahiye jaise:
	- पालक, गाजर, बीन्स, मटर, भिंडी, और गोभी [Source: Essential Nutrients for A Pregnant Woman.md].
pregancny me konsi sabji khau or konsi sabji nahi	Junk food aur bahut tel wali sabji se bachna chahiye. [Source: Essential Nutrients for A Pregnant Woman.md].
	Normal delivery ke liye aapko kuch cheezein dhyan mein rakhni chahiye:
	- **Regular ANC Check-ups:** 7th-8th mahine mein ANC 3 aur 9th mahine mein ANC 4 karwaayein. [Source: Ante natal care document.md] - **Nutrition:** Har din 350 extra calories aur 18g protein lein. [Source: PNC nutrition and anemia.md] - **Birth Preparedness:** Delivery bag mein zaroori documents aur items pack karein. [Source: Ante natal care document.md] - **Emergency Plan:** 102/108 par ambulance ke liye call karein. [Source: Ante natal care document.md] - Janm ke samay: BCG, OPV-0, Hepatitis B [Source: immunization_schedule_and_faqs.md]. - 6, 10, 14 hafte: Pentavalent, OPV, Rotavirus, IPV [Source: immunization_schedule_and_faqs.md]. - 9-12 mahine: Measles/MR, JE [Source: immunization_schedule_and_faqs.md]. - 16-24 mahine: DPT booster, OPV booster, Measles/MR 2nd dose [Source: immunization_schedule_and_faqs.md]. - 5-6 saal: DPT booster [Source: immunization_schedule_and_faqs.md]. - 10 aur 16 saal: TT vaccine [Source: immunization_schedule_and_faqs.md].
normal delivery k liye kya kare	
Bche ko tika kab kab lgta hai	
	Aapka hemoglobin 7 g/dl hai, jo severe anemia hai. Aapko turant kisi bade hospital ya health facility (FRU/DH/MC) mein jana chahiye. Wahan par aapko parenteral iron therapy aur intensive care milegi. [Source: maternal_anemia_diagnosis_and_treatment.md]
Mera Khoon 7 point hain khoon badhane ke liye kya karna hai	
	Aapka BP 180 hai, jo bahut zyada hai. Kripya turant doctor se milen ya hospital jaayein. Ye ek emergency hai. [Source: maternal_danger_signs_and_emergencies.md]
Mera bp 180 bad gaya hai admit ke liye bola hai

Abhi mujhe 1 month hua hai to mujhe khoon janch kab karni padegi	Aapko pehli ANC check-up ke dauraan khoon ki janch karani chahiye, jo missed period ke baad ya pehle 3 mahine (12 hafte) ke andar honi chahiye. [Source: Ante natal care document.md]
Mera babu kamzor h use kanch m rakha h	Agar aapka babu kamzor hai aur incubator mein hai, toh Kangaroo Mother Care (KMC) ek achha tareeka ho sakta hai. Isme maa ya koi aur caregiver bachche ko apne se chipka ke rakhta hai aur doodh pilata hai. Ye bachche ki sehat ke liye bahut faydemand hai. [Source: CHILD CARE AFTER BIRTH.md]
Agar bacche ko dudh kam hojaye to kiya kare	Agar bacche ko dudh kam mil raha hai, toh yeh do cheezein dekhein: 1. Baccha din mein 6 se zyada baar susu kar raha hai ya nahi. 2. Baccha din mein 20-30 gram wazan badha raha hai ya nahi. Agar yeh dono cheezein nahi ho rahi, toh doctor se sampark karein. [Source: Breastfeeding knowledge base.md]
kamar me dard hai kya karu	Kamar me dard agar bahut zyada hai ya lagatar hai, toh yeh ek danger sign ho sakta hai. Aapko turant kisi healthcare provider se sampark karna chahiye. [Source: Ante natal care document.md]
pair me bohot soojan hai	Agar aapke pair, haath, ya chehre mein soojan hai, toh yeh ek danger sign ho sakta hai. Kripya turant kisi healthcare provider se sampark karein. [Source: Ante natal care document.md]
pregnancy me mujhe konsi yojana ka labh milega	Pregnancy ke dauran aapko Pradhan Mantri Matru Vandana Yojana (PMMVY) ka labh mil sakta hai. Is yojana ke tahat, pehle bache ke liye aapko ₹5,000 milte hain, jo do kiston mein diye jaate hain. Agar doosra bacha ladki hai, toh ₹6,000 milte hain. Eligibility ke liye aapka parivarik aay ₹8 lakh se kam hona chahiye aur kuch aur shartein bhi hain. [Source: Pradhan Mantri Matru Vandana Yojana.md]
Caeser delivery k baad kya kha sakte hai or kya nahi kha sakte hai	Caesarean delivery ke baad aapko nutritious diet lena chahiye. - **Kha sakte hain:** Doodh, dahi, paneer, sabzi, daal, badam, machhli (soft bones wali), aur palak. - **Nahi kha sakte hain:** Bahut zyada caffeine wale drinks jaise chai, coffee, aur alcohol.
Caeser delivery k baad kya kha sakte hai or kya nahi kha sakte hai	Aapko 2 liter se zyada paani peena chahiye aur calcium aur iron supplements lena chahiye. [Source: Essential Nutrients for A Pregnant Woman.md] Pregnancy me aapko kuch fruits khane chahiye aur kuch se bachna chahiye: - **Khane ke liye:** Seb, kela, santara, angoor, aur papita (paka hua). - **Bachne ke liye:** Kachcha papita aur ananas, kyunki ye garam hote hain aur pregnancy me nahi khane chahiye.
pregancny me konsa fall khau or konsi nahi	Hamesha dhyan rakhein ki fruits ko achhe se dhoke khayein. [Source: Essential Nutrients for A Pregnant Woman.md]
